

# Women on Boards Profile

## **Sponsorship Opportunities**

Women on Boards as an NGO was inaugurated in 2015 and since then we have been involved in various activities to increase the number of women participating on boards and empower them in all kinds of economic activities. The most critical challenge facing the development of our NGO is the inhibition of financial resources. As such, we believe that with the generosity of corporations operating in our community, the programs conducted by WoB will continue to expand and make a difference in the empowerment of women. To make this possible, changing the mindset and attitude of the society is required in a constructive manner through information dissemination, innovative research, awareness and education. Funds received as sponsorship will be utilized to conduct various activities of our NGO.

## **Sponsorship Levels**

Corporate sponsorship package levels have been designed so that your company can be involved in different ways to show its support for the WOB initiative.

We are seeking financial (or in kind) contributions to create an endowment fund to tackle various women empowerment issues. More information can be obtained from the following Sponsorship Form.

Note: Both monthly and annual contributions can be made.
